

ROSHAN REDDY RACHAMALLA

Front-End Developer

"Dedicated front-end developer from India with self-taught HTML5, CSS, and JavaScript skills honed through building websites for friends. I completed a 7-month Coursera program (Meta Front-End Developer Specialization) to further advance my abilities. Aspiring to become a full-stack developer through determination and hard work."

EDUCATION

B.Tech in Electronics and Communication Engineering

Marri Educational Society's Marri Laxman Reddy Institute of Technology and Management

08/2019 - 08/2023

Hyderabad, India

Project

- [Image Processing using NodeJS].

HANDS-ON PROJECTS

Booking-Table(Capstone Project)

- Executed and delivered a fully functional solution as part of my successful completion of the final project in my specialization program.
- Showcased proficiency in React, Figma, Git, HTML, and CSS, utilizing these technologies to develop and implement a dynamic and interactive solution.
- Transformed ideas into reality by leveraging my skills in web development, resulting in a robust and user-friendly application.

Code-Pen Clone

- Developed a dynamic user interface using React to replicate the Code-Pen platform.
- Enabled users to write code and experience instant visual output, fostering an interactive coding environment.
- Empowered users to showcase their coding skills and experiment with different code snippets in a user-friendly environment.

YouTube -Clone

- Implemented a React-based solution to replicate the YouTube user interface, ensuring a smooth and intuitive user experience.
- Leveraged Material UI to design and style the interface, resulting in a visually appealing and modern look.
- Integrated Rapid API to efficiently fetch and display data, providing users with seamless access to relevant YouTube content.

E-Commerce Landing Page

- Diligently refined my skills and expertise to deliver a project that excelled in responsiveness.
- Achieved success by combining technical know-how and attention to detail to create a visually appealing and user-friendly responsive design.
- Achieved success by combining technical know-how and attention to detail to create a visually appealing and user-friendly responsive design.

Portfolio

- Employed the knowledge and skills acquired throughout my learning journey to meticulously craft this portfolio.
- Demonstrated proficiency by implementing learned principles of design, development, and user experience.
- Showcased the culmination of my learning journey through a thoughtfully crafted and visually engaging portfolio.
